SPROUTS FARMERS MARKET, INC. REPORTS SECOND QUARTER 2018 RESULTS

PHOENIX, Ariz. – (Globe Newswire) – August 2, 2018 – Sprouts Farmers Market, Inc. (Nasdaq: SFM) today reported results for the 13-week second quarter ended July 1, 2018.

Second Quarter Highlights:

- Net sales of \$1.3 billion; a 12% increase from the same period in 2017
- Comparable store sales growth of 2.0% and two-year comparable store sales growth of 3.4%
- Net income of \$42 million; a 2% increase from the same period in 2017
- Diluted earnings per share of \$0.32; a 10% increase from the same period in 2017
- Raised the low end of 2018 EPS guidance

“Double-digit sales and EPS growth in our second quarter reflects the strength of Sprouts’ differentiated business model and our solid execution across new and existing markets,” said Amin Maredia, chief executive officer of Sprouts Farmers Market. “Our planned 2018 investments in our team members and technology, which increased this quarter, will strengthen our customer service, generate operational efficiencies and support our long-term growth.”

Second Quarter 2018 Financial Results

Net sales for the second quarter of 2018 were \$1.3 billion, a 12% increase compared to the same period in 2017. Net sales growth was driven by strong performance in new stores opened and a 2.0% increase in comparable store sales.

Gross profit for the quarter increased 11% to \$380 million, resulting in a gross profit margin of 28.8%, a decrease of approximately 10 basis points compared to the same period in 2017. This deleverage was primarily driven by lower merchandise

margins.

Direct store expense (“DSE”) for the quarter increased 16% to \$273 million, or 20.7% of sales, compared to 19.9% in the same period in 2017. This deleverage was primarily driven by planned wage investments funded by the savings from the Tax Cuts and Jobs Act, as well as increased healthcare costs and higher depreciation expense.

Selling, general and administrative expenses (“SG&A”) for the quarter increased 14% to \$43 million, or 3.3% of sales, compared to 3.2% in the same period in 2017. This primarily reflects costs associated with increased advertising expenses and strategic investments in technology.

Net income for the quarter was \$42 million, a 2% increase compared to net income for the same period in 2017 and diluted earnings per share was \$0.32, an increase of \$0.03 or 10%, as compared to diluted earnings per share for the same period in 2017. This increase was driven by a lower effective tax rate due to the Tax Cuts and Jobs Act, higher sales, and fewer shares outstanding due to our repurchase program.

Fiscal Year-to-Date Financial Results

For the 26-week period ended July 1, 2018, net sales were \$2.6 billion, a 13% increase compared to the same period in 2017. Growth was driven by solid performance in new stores opened and a 2.3% increase in comparable store sales. Net income was \$108 million, a 24% increase compared to net income for the same period in 2017. Diluted earnings per share was \$0.82, an increase of \$0.20 or 32%, compared to diluted earnings per share of \$0.62 for the same period in 2017.

Growth and Development

During the second quarter of 2018, we opened 7 new stores: two in California and one each in Arizona, Georgia, Nevada, North Carolina and our first store in the state of South Carolina. Four additional stores have been opened in the third quarter to date, resulting in a total of 305 stores in 17 states as of August 2, 2018.

Leverage and Liquidity

We generated cash from operations of \$171 million year-to-date through July 1, 2018 and invested \$92 million in capital expenditures net of landlord reimbursement, primarily for new stores. We ended the quarter with a \$458 million balance on our revolving credit facility, \$27 million of letters of credit outstanding under the facility, \$23 million in cash and cash equivalents, and \$299 million available under our current share repurchase authorization. Year-to-date through August 1, 2018, we have repurchased 8.3 million shares of common stock for a total investment of \$191 million.

2018 Outlook

As previously communicated, with the savings from the Tax Cuts and Jobs Act ⁽¹⁾, we will be investing \$10 million, or approximately one third of our tax savings in team member wages and benefits. The following provides information on our guidance for 2018:

	Full-Year 2018 Current Guidance	Full-Year 2018 Prior Guidance
Net sales growth	10.5% to 11.5%	10.5% to 11.5%
Unit growth	Approximately 30 stores	Approximately 30 stores
Comparable store sales growth	1.5% to 2.5%	1.5% to 2.5%
Diluted earnings per share	\$1.24 to \$1.28	\$1.22 to \$1.28
Effective tax rate	19% to 20% (1)	19% to 20% (1)
Capital expenditures (net of landlord reimbursements)	\$165M to \$170M	\$165M to \$170M

Footnotes

⁽¹⁾ The lower effective tax rate is due to the Tax Cuts and Jobs Act and the 2017 change in accounting standards related to the recognition of excess tax benefits for stock-based compensation and the associated effect of actual and estimated option exercises for the year.

Second Quarter 2018 Conference Call

We will hold a conference call at 7 a.m. Pacific Daylight Time (10 a.m. Eastern Daylight Time) on Thursday, August 2, 2018, during which Sprouts executives will further discuss our second quarter 2018 financial results.

A webcast of the conference call will be available through Sprouts' investor webpage located at investors.sprouts.com. Participants should register on the website approximately 10 minutes prior to the start of the webcast.

Important Information Regarding Outlook

There is no guarantee that Sprouts will achieve its projected financial expectations, which are based on management estimates, currently available information and assumptions that management believes to be reasonable. These expectations are inherently subject to significant economic, competitive and other uncertainties and contingencies, many of which are beyond the control of management. See "Forward-Looking Statements" below.

Forward-Looking Statements

Certain statements in this press release are forward-looking as defined in the Private Securities Litigation Reform Act of 1995. Any statements contained herein that are not statements of historical fact (including, but not limited to, statements to the effect that Sprouts Farmers Market or its management "anticipates," "plans," "estimates," "expects," or "believes," or the negative of these terms and other similar expressions) should be considered forward-looking statements, including, without limitation, statements regarding the company's guidance, outlook and opportunities. These statements involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this release. These risks and uncertainties include, without limitation, risks associated with the company's ability to successfully compete in its intensely competitive industry; the company's ability to successfully open new stores; the company's ability to manage its rapid growth; the company's ability to maintain or improve its operating margins; the company's ability to identify and react to trends in consumer preferences; product supply disruptions; general economic conditions; and other factors as set forth from time to time in the company's Securities and Exchange Commission filings, including, without limitation, the company's Annual Report on Form 10-K. The company intends these forward-looking statements to speak only as of the time of this release and does not undertake to update or revise them as more information becomes available, except as required by law.

Non-GAAP Financial Measures

In addition to reporting financial results in accordance with accounting principles generally accepted in the United States ("GAAP"), the company presents EBITDA. This measure is not in accordance with, and is not intended as an alternative to, GAAP. The company's management believes that this presentation provides useful information to management, analysts and investors regarding certain additional financial and business trends relating to its results of operations and financial condition. In addition, management uses this measure for reviewing the financial results of the company and as a component of incentive compensation. The company defines EBITDA as net income before interest expense, provision for income tax, and depreciation, amortization and accretion.

Non-GAAP measures are intended to provide additional information only and do not have any standard meanings prescribed by GAAP. Use of these terms may differ from similar measures reported by other companies. Because of their limitations, non-GAAP measures should not be considered as a measure of discretionary cash available to use to reinvest in the growth of the company's business, or as a measure of cash that will be available to meet the company's obligations. Each non-GAAP measure has its limitations as an analytical tool, and you should not consider them in isolation or as a substitute for analysis of the company's results as reported under GAAP.

The following table shows a reconciliation of EBITDA to net income for the thirteen and twenty-six weeks ended July 1, 2018 and July 2, 2017:
